Pharmacy Comments

DMS info will go here

"Pharmacy Comments" box is where the contents of the DMS referral will go (box expands as the pharmacist types)

Medications

Medication Name	Dose	Frequency	Route	Duration	Status	Supply
ENOXAPARIN SYRINGES (4000 UNITS) 40 mg in 0.4mL Injection	40mg	OD (once daily)	SC (subcutaneous)	42 days	New * (started in hospital)	Supply * from Pharmacy

Screened by	Quantity	Pharmacy comments	Pharmacy
Simone.Gardner@uhcw.nhs.uk			

Name of clinical screener (pharmacist) will be printed in the "Screened by" box under each medicine. NB. This will normally be a name not an e-mail address.

GP Advice / Notes

Medication Name	Dose	Frequency	Route	Duration	Status	Supply
PARACETAMOL 500 mg Tablets	1g	QDS (four times daily)	PO (oral)	28 days	New * (started in hospital)	Supply * from Pharmacy

Screened by	Quantity	Pharmacy comments	Pharmacy
Simone.Gardner@uhcw.nhs.uk			

GP Advice / Notes

* The prescriber populates the drugs initially, but the pharmacist has access to (and can edit) the "status" and "supply" boxes whilst screening the TTO. Please see attached screenshot(s) that show what options they can choose from.

Instructions for Patient

Inpatient Discharge

Mr. Beta L TEST - Male - 14/12/1935 (86y 7m)
Hospital No: AA1082021 NHS:

A HOSPITAL STAY MAY INCREASE YOUR RISK OF DEVELOPING A BLOOD CLOT.

- It is important to take all medications / injections and to wear anti-embolism stockings as advised.
- Information on what to look out for and how to reduce your risk of blood clots can be downloaded at www.uhcw.nhs.uk/preventing-blood-clots or ask your nurse to give you a printed copy of the information.
