

# Strengthening DPP Provision in The Midlands: Webinar

Tuesday 25<sup>th</sup> June at  
7:30pm – 8.30pm

There has been some great work happening in our region to secure **DPP provision**, in readiness for the **2025/26 Pharmacist Foundation Training Year**. As an organisation, we feel that it would be useful to host a webinar to showcase the good practice. There will also be an overview of key updates regarding the training year; as well as a refresher on DPP Person Specification. The aim of this would be to:

Understand how **different systems** have engaged with the process

Identify some of the barriers encountered

Learn from colleagues how they **overcame some of the challenges**

Serve as a **forum to network** with likeminded colleagues within the Midlands region
