The Community Pharmacy Research Engagement Programme (C-PREP) Showcase

What is the C-PREP Showcase about?

The Community Pharmacy Research Engagement Programme (C-PREP) is a research project, funded by the West Midlands Regional Research Delivery Network (WM RRDN) and led by Keele University in collaboration with Midlands Partnership University NHS Foundation Trust (MPFT).

The project explored research engagement among community pharmacy professionals and their service users across the West Midlands. The multidisciplinary research team from Keele University and MPFT brought together researchers, academics and practitioners, including pharmacy professionals.

We would like to invite you to join us to hear about the findings from C-PREP, learn about community pharmacy professionals' and service suers' experiences and involvement in research, and hear about our plans for the future. We will also invite you to take part in an open forum discussion to share your views and ideas on how we can enhance community pharmacy professionals' and service users' engagement in research.
